Bramsche, September 2023

Solidarity in Bramsche were once again evident when Heytex Bramsche GmbH, a committed company in the region, presented a donation of 1500 euros to the Bramscher Tafel last week. This event follows on from the willingness to donate that had already taken place after the last Expo in 2019, when the company made a donation to the Löwenherz children's hospice.

During the EXPO, which this year took place on September 10 in the Engter industrial park, visitors had the opportunity to discover the diversity of the local company and do good at the same time. One of the main attractions in return for a donation was the 65m high crane gondola, which provided thrills and excitement, and ice cream was also a welcome refreshment on this hot summer day.

The willingness to donate was impressive, so that the sum of 1500 euros, which was increased by the Heytex works council, could be handed over to the Bramscher Tafel last week at a meeting and with a symbolic check.

This action was organized by the Expo project team and the company's works council. The Chairman of the Works Council, Mario Walhorn, emphasized the importance of community solidarity and stated: "We are pleased to be able to make a contribution to support the Bramscher Tafel. We are deeply grateful for the generosity of the donors and are delighted that such a round sum has been raised. This donation shows how strong our community is and how important it is to support each other."

The Bramscher Tafel, represented by Berthold Schlüter, expressed their gratitude for this generous donation and emphasized how important such support is to their ongoing efforts.

About the Heytex Group: Since 1913, the Heytex Group has been one of the world's leading manufacturers in the development of high-quality and functionalized technical textiles and produces them with more than 550 employees at five production sites on three continents in Bramsche & Ebersbach-Neugersdorf (Germany), Nijverdal (Netherlands), Zhangjiagang (People's Republic of China) and in Pulaski (USA). No matter whether laminated or coated textiles, truck tarpaulins, large-format digital printing of advertising banners or top

technological products such as biogas membranes: Outstanding technical know-how, first-class customer service, the consistent use of state-of-the-art production facilities, uncompromising quality standards for every single product and the worldwide availability of our products are the unifying element of all companies in the Heytex Group.
